

ANT332

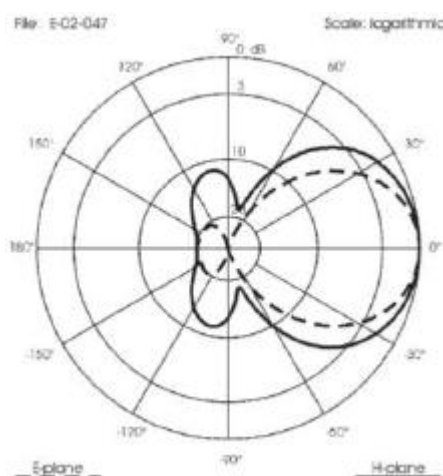

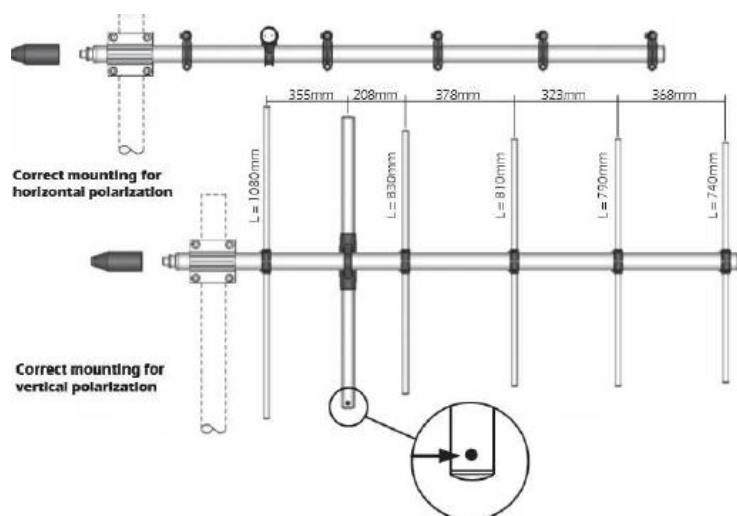

YAGI ANTENNA 155 – 175 MHz

YAGI ANTENNA GAIN: 10DBI DIRECTIONAL OUTDOOR

This model is dedicated to fixed installations. Its large gain increases the transmission range or compensate for losses due to long cable runs.

The selected materials make a strong antenna weatherproof.

It comes with its mounting system.

Radiation pattern

CHARACTERISTICS

Electrical	
Type	Yagi 6 elements
Frequencies	• 155 – 175 MHz
Impedance	50Ω
Polarization	Linear Vertical or Horizontal
Gain	10,5 dBi
Power Max.	200 W (at 30°C)
Connector	N-Female with rubber cover

Mechanical	
Material	Anodized aluminium
Color	Chromed brass
Dimension	2010 x 985 mm
Mounting	Sur Mat (diameter 35-52 mm)
Temperature	-40°C up to +60°C
Fixation	See picture
