

Wi-Fi Indoor- outdoor ANTENNA

This omnidirectional antenna model has been specially designed for outdoor facilities. This waterproof antenna (IP67) is small and easy to install. It offers good performance of isotropic gain

☛ Versatile and anti-vandalism

- Single: it is attached to a roof, a cabinet or any flat surface
- With a bracket: it can be fixed on a wall or a mast.

CHARACTERISTICS

Electrical	
Type	Mobile, roof antenna
Frequencies	• 2,4-2,5 GHz and 5,1-5,9 GHz
Impedance	50Ω
Polarization	Linear
Gain	• 2 dBi
VSWR	<2,5
Cable	2,5m
Connector	RPSMA Male

Mecanical	
Material	ABS
Color	Black
Temperature	-40°C à +85°C
Dimensions	See page 2
