INDUSTRIAL NETWORKING

A cube «outdoor-rated» for external cellular connections

Designed to allow outdoor installation of RAS Machine Access Boxes and IPL VPN routers, the EticCUBE also enables the antenna to be installed up to 100 m away from the industrial process.
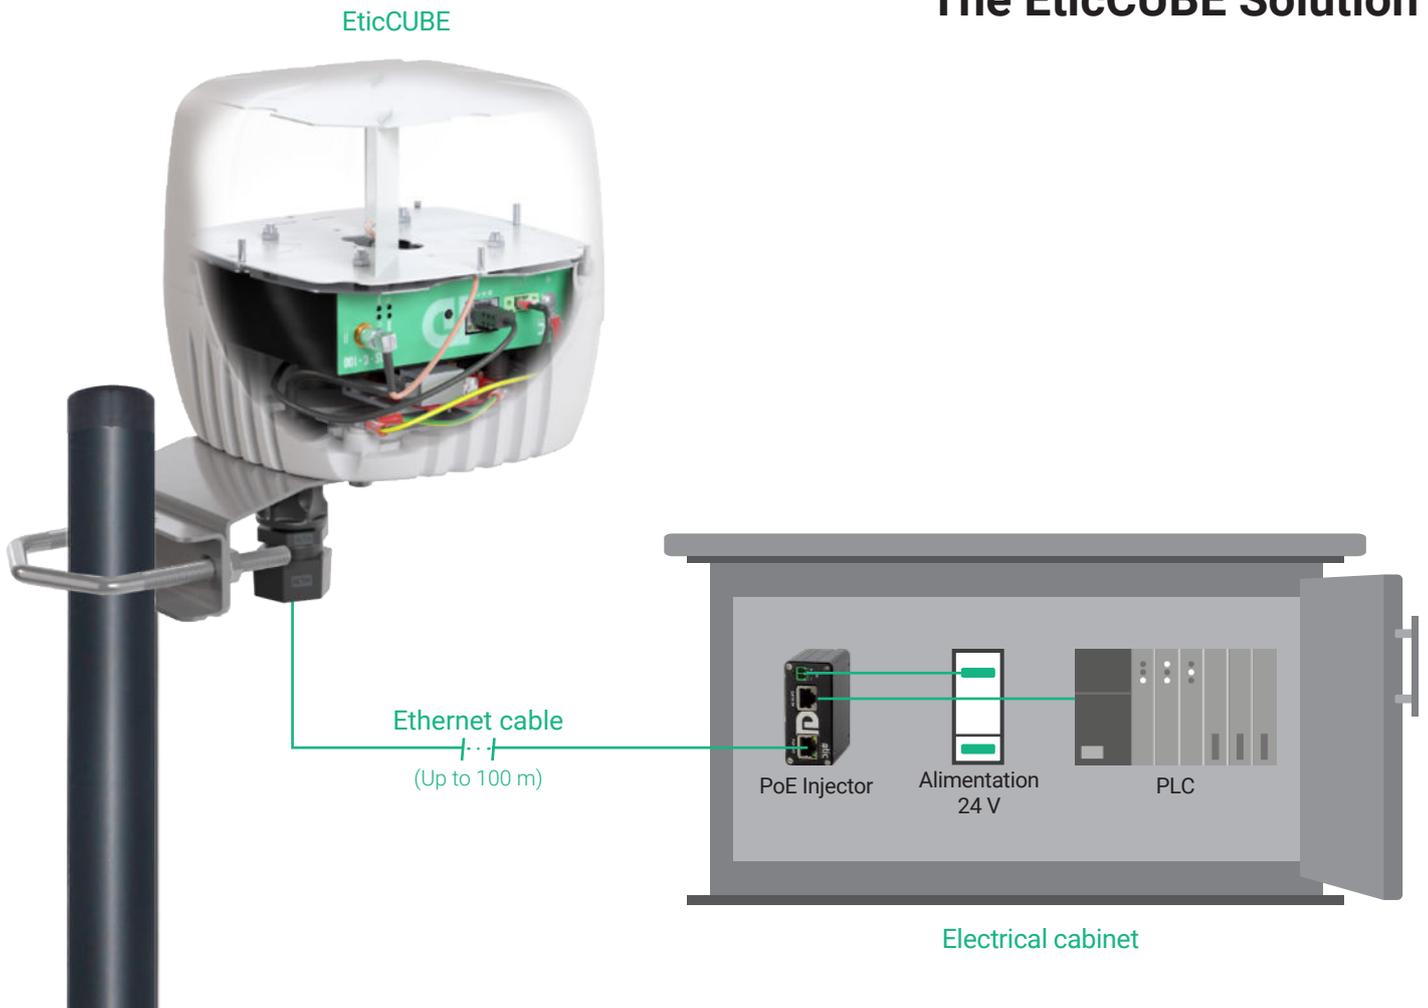

The product comes with a PoE splitter and an integrated antenna. A PoE injector is also included with the solution, allowing the unit to be powered via the Ethernet cable.

The EticCUBE solution

- ⊘ Rugged IP68-rated waterproof enclosure
- ⊘ IK08 impact-resistant enclosure
- ⊘ Integrated omnidirectionnal antenna *(with gain)*
- ⊘ Integrated PoE splitter
- ⊘ Optionnal prepaid SIMCard integrated *(36 months of connectivity)*
- ⊘ Compatible with RAS-C-100 and IPL-C-100 products
