

**INDUSTRIAL NETWORKING**

## Centralized management platform

EFM (Etic Fleet Manager) is a centralized and efficient platform that lets you manage, monitor and configure your fleet of RAS/IPL routers. From small fleets to several hundred devices, EFM meets your needs.

EFM is also the ideal tool for managing your fleet of EticSIM cards (data consumption and subscription tracking)

## The Etic Fleet Manager Solution

- ✓ Free EFM Standard offer
- ✓ Accessible from Etic Telecom website (SaaS Mode)
- ✓ Centralized management of users and remote products (RAS/IPL, EticSIM)
- ✓ Easy firmware update
- ✓ Easy fleet monitoring (dashboard, alerts, geolocation)
